

# Science Fair Project Description

PLEASE BRING TO SCHOOL ON THE DAY YOU TURN IN YOUR PROJECT

Name: \_\_\_\_\_

Teacher/Grade: \_\_\_\_\_

To help you correctly follow the scientific method when you do a science project you should organize your project as follows:

**PROBLEM:** (State the problem that you are trying to solve with your experiment)

---

---

**MATERIALS:** (What materials did you use?)

---

---

**METHODS:** (Describe your experiment)

---

---

**RESULTS:** (What were your observations? What were the results of your experiment?)

---

---

**CONCLUSIONS:** ( What are your conclusions? Have you answered the problem? Did you find any difficulties that make it hard to reach any definite conclusions? Do your results and conclusions suggest other experiments you might do in the future?)

---

---

---

---
